

# 73S84 VT2PRO

Relative Maturity

# 84

Day

**VTDoublePRO®**  
RIB COMPLETE®

Emergence	8
Early Plant Vigor	8
Root Rating	8
Stalk Rating	8
Population Tolerance	32-36
Drought Tolerance	8
Corn After Corn	R
Staygreen	8
Dry Down	8
Test Weight	Med
Ear Height	Med
Plant Height	Med
Leaf Angle	Semi-Upright
Cob Color	Red
Ear Type	Semi-Flex
Ear Retention	8
Husk Cover	Adequate
Kernel Rows	16-18
GDD, Black Layer	2110
Growth Regulators (Group 4)	C
Pigment Inhibitors/ HPPD Inhibitor (Group 27)	A
Sulfonylureas/ALS Inhibitors (Group 2)	A
Highly Productive Soils	8
Mod. Productive Soils	9
Less Productive Soils	9
Northern Leaf Blight	8
Goss's Wilt	8
Tar Spot	NA

## Key:

1-9 Rating (1=poor, 9=excellent)

A=Acceptable

C=Caution

WM=With Management

NR=Not Recommended

R=Recommended

## • DETAILS •

- Excellent agronomics and a good choice for variable soils
- This hybrid displays strong emergence and seedling vigor
- A medium-statured plant with excellent stalk and root strength
- Very consistent ear development at various planting populations
- Impressive disease tolerance including Northern Leaf Blight and Goss's Wilt
